

To be Completed by the Applicant and provided as the first page in the Pre-feasibility Report. Please fill-up the shaded areas only. Page layout: Landscape **Format F2**

<b>Project Type</b>	Waste	<b>Type of Waste Used</b>	Agricultural	Industrial	Municipal (select one)	Separate format for waste heat
<b>Name of the Project</b>						
<b>Name of the Applicant</b>						
<b>Location of Power Plant</b>	District:		DS Division		GN Division(s)	
	Village(s)					
<b>Resource Information</b>	Waste material to be used				Method of transport	
	Principal supplier(s)		Sorting Method		Daily fuel use (tonne/day)	
	Moisture level as delivered		Drying method			
<b>Power Plant Data</b>	Combustion technique (describe):					Installed capacity (kW)
	Number of units		Generating voltage (V)		Net annual energy (MWh)	Overall net efficiency
<b>Land and Water Requirements</b>	Fuel storage and processing (m <sup>2</sup> )		Power plant site (m <sup>2</sup> )		Cooling water requirement (m <sup>3</sup> /day) and source	Cooling system (describe):
<b>Land Ownership</b> (approximate percentage distribution by type of owner)	State land		Applicant's own land		Other private land	Estate land
<b>Power Transmission</b>	Interconnection voltage (volt)		New transmission line (km)		Receiving grid substation	Any special issues on transmission:
<b>Environmental impacts</b>	Ash quantity (m <sup>3</sup> /day)		Ash disposal method		Other environmental issues (describe):	
<b>Estimated Investment (LKR)</b>	Pre-project, land rights				<b>Project Financing Plan (LKR)</b>	
Please state below any assumptions in cost estimates	Civil works				Equity by the Applicant	
	Electro-mechanical equipment				Equity from other sources	
	Transmission line				Loans	
	Other-IDC, insurance, working capital, contingencies				Total	
	Project development costs				Any special notes on the financing plan:	
	Total					
Estimated annual maintenance cost (LKR)						
<b>Project IRR</b>		<b>Equity IRR</b>		<b>Other financial parameters (specify)</b>		
Please describe any additional issues related to the resource, power plant, land and transmission line, that require the attention of the SEA:						

**For use by SEA:**

Notes to the Project Approving Committee:

PAC submission Date:	Discussed on:	Decision:	Communicated to applicant on:
